PROFILE

Software Engineering graduate from Limkokwing University with internship experience building a government HRMIS mobile app at the Ministry of Post and Telecommunications. I build cross-platform mobile and web apps from start to finish using Flutter, React Native and React, with Node.js and Express REST APIs, Supabase and PostgreSQL. Experienced with payment integration using Stripe and Bakong KHQR.

WORK EXPERIENCE

HRMIS Mobile Application Intern JUN – SEP 2026

Ministry of Post and Telecommunications, Phnom Penh

- Gathered and analysed requirements with the team to define the HRMIS app scope for ministry staff.
- Built responsive Flutter screens and connected them to the HRMIS backend through REST APIs.
- Implemented attendance tracking and leave request management.
- Tested, debugged and optimised the app; prepared technical documentation.

PROJECTS

Resumate 2026

React, Vite, Supabase, Stripe, Bakong KHQR, Python

- Career-readiness platform for Cambodian job seekers: build resumes, analyse job ads, match skills and prepare for interviews.
- Integrated Stripe and Bakong KHQR for payments with Cambodia's national QR system.

PhsarOne 2026

Flutter, Node.js, Express.js, Prisma, PostgreSQL

- Movie booking app with a Flutter front end and a Node/Express REST API using Prisma and PostgreSQL.

SabayBook App 2025

Flutter, Node.js, Express.js, Prisma, PostgreSQL

- Movie booking app with a Flutter front end and a Node/Express REST API using Prisma and PostgreSQL.

EDUCATION

BSc in Software Engineering with Multimedia 2023 – 2026

Limkokwing University of Creative Technology, Phnom Penh

GPA: 3.8 / 4.0

Courses

- Flutter and Dart: The Complete Guide (Udemy), Aug – Oct 2025
- The Complete React Native + Hooks Course, Dec 2025 – May 2026
